Summary

Full-stack developer and car enthusiast committed to cultivating teamwork to promote healthy work environments, fostering integrity and trust. Teamwork is the motor that runs every project, without it technology wouldn't be what it is today.

Projects

Individual Project: AkinaSpeed - MERN stack | An Ecommerce Website for Car Enthusiasts.

A React based website where Subaru BRZ, Scion FR-S, and Toyota 86 Owners can purchase parts. Users must SignUp/Login before being able to make a purchase. Parts are sorted by category and render based on category selected state. Parts are saved in cart and quantity can be increased/decreased/removed. You can also view a detailed view of pasted orders that is user-centric.

Individual Project: Toyobaru Forum - MEN stack

A Car Forum for all Subaru BRZ/ Scion FRS / Toyota 86 owners. Threads are sorted by Topics and Users can sign up via google OAuth, create new threads, comment on threads, see all users, as well as update their profile. The Name of this forum comes from the nickname given to these cars that were jointly developed by Toyota and Subaru - The Toyobaru Twins.
